

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

TABLE OF CONTENTS.

	PAGE
On the leaf and sporocarp of <i>Pilularia</i> (with plates I-III), <i>Duncan S. Johnson</i>	I
Conditions for the germination of the spores of bryophytes and pteridophytes (with plate IV), - - - - - <i>Fred De Forest Heald</i>	25
A comparative study of the development of some anthracoses (with plates VII-XVIII), - - - - - <i>Bertha Stoneman</i>	69
On the relation of the flora of the Lower Sonoran zone in North America to the flora of the arid zones of Chili and Argentine, - <i>William L. Bray</i>	121
The origin of gymnosperms and the seed habit, - - <i>John M. Coulter</i>	153
A study of regeneration as exhibited by mosses (with plates XIX and XX), <i>Fred De Forest Heald</i>	169
Karyokinesis in the root tips of <i>Allium Cepa</i> (with plates XXI and XXII), <i>John H. Schaffner</i>	225
Cell division in pine seedlings (with plates XXIII and XXIV), <i>Edward L. Fullmer</i>	239
Popular American plant-names. V and VI, - - - <i>Fannie D. Bergen</i>	247
Observations upon the newer botany, - - - - <i>Byron D. Halsted</i>	259
The comparative morphology of the pistils of the Ranunculaceæ, Alismaceæ, and Rosaceæ (with plate XXV), - - - - <i>Ernst A. Bessey</i>	297
The embryology of <i>Alyssum</i> (with plates XXVI-XXVIII), <i>Lumina Cotton Riddle</i>	314
Further observations on the eastern acaulescent violets, <i>Charles Louis Pollard</i>	325
A new self-registering transpiration machine, - <i>Edwin Bingham Copeland</i>	343
The effect of aqueous solutions upon the germination of fungus spores, <i>F. L. Stevens</i>	377
The physiological action of certain plasmolyzing agents, - <i>Rodney H. True</i>	407
The early botanical views of <i>Prunus domestica</i> , - - <i>F. A. Waugh</i>	417

BRIEFER ARTICLES—

Notes on the genus <i>Bartonia</i> ,	-	-	-	-	-	<i>B. L. Robinson</i>	46
Notes on sundry American plums,	-	-	-	-	-	<i>F. A. Waugh</i>	48
Two noteworthy oaks (with plates v and vi),	-	-	-	-	-	<i>E. J. Hill</i>	53
The southern maidenhair fern in the Black Hills of South Dakota,						<i>Charles E. Bessey</i>	211
Bacterial content of hailstones,	-	-	-	-	-	<i>F. C. Harrison</i>	211
Notes and new species of the genus <i>Euphorbia</i> (with figures),						<i>Charles F. Millspaugh</i>	265

BRIEFER ARTICLES—*continued*

Joseph F. Joor (with portrait)	- - - - -	<i>J. B. S. Norton</i>	270
Four generations of botanists in one family,	- - - - -	<i>G. E. Stone</i>	274
Some results from the study of <i>Allium</i> ,	- - - - -	<i>Clarence J. Elmore</i>	277
The seeds and seedlings of some Amentiferæ (with plate XXIX),		<i>W. W. Rowlee and George T. Hastings</i>	349
A graminicolous <i>Doassansia</i> ,	- - - - -	<i>J. J. Davis</i>	353
Recent work upon the development of the archegonium (with figures),		<i>D. H. Campbell</i>	428
The homology of the blepharoplast,	- - - - -	<i>C. J. Chamberlain</i>	432

OPEN LETTERS—

The American Botanist,	- - - - -	<i>B. L. Robinson</i>	279
<i>Eschscholtzia Mexicana-parvula</i> ,	- - - - -	<i>T. D. A. Cockerell</i>	279
The source of <i>Welwitschia</i> ,	- - - - -	<i>Maxwell T. Masters</i>	355
Confused species of <i>Agropyron</i> ,	- - - - -	<i>Roscoe Pound</i>	355
Another question of nomenclature,	- - - - -	<i>T. D. A. Cockerell</i>	436

CURRENT LITERATURE—

For titles see index under author's name and Reviews. Papers noticed in "Notes for Students" are indexed under author's name and subjects.

NEWS—68, 152, 223, 294, 373, 455.

DATES OF PUBLICATION.

No. 1, July 28; No. 2, August 15; No. 3, September 17; No. 4, October 15; No. 5, November 19; No. 6, December 22.

ERRATA.

- P. 151, line 6, for Kawin read Kaurin.
- P. 223, line 6 from below, for *merite* read *méríte*.
- P. 235, line 3 from below, after reduced insert to.
- P. 239, line 2, for Fulmer read Fullmer.
- P. 240, line 5 from below, for nucleoli read nuclei.
- P. 279, line 4, for 1896 read 1898.
- P. 296, line 12 from below, for is read was.
- P. 296, line 11 from below, for this issue read the October number.
- P. 310, line 18, after lucida dele comma.
- P. 375, line 14, after him. insert — W. M. CANBY.
